## BRACKETS

### ELECTRIC WAY BRACKET AND BANDS

- A. BANDS:** Made of durable stainless steel with convenient threaded tightening assembly. Adjustable for utility and streetlight poles. Bands are 42" in length to fit poles up to 10" in diameter.
- B. BRACKET:** Made of high tensile aluminum. Equipped with thumbscrew which keeps flag staffs from slipping out. For use with flags up to 3'x5' in size and poles up to 6' in length.

### 3 AND 5 FINGER SPEARHEAD BRACKETS

Cast aluminum holder designed to hold three or five 12"x18" flags with 3/8" diameter staff.

### FDD BRACKETS

Holds flag pole at a 45 degree angle from either a horizontal or vertical surface. Available to hold either 1" poles or 1/2" diameter staffs

### STAINLESS STEEL AND CHROME FDD BRACKETS

Steel heavy duty FDD bracket in plain or chrome finish.

### ADJUSTABLE ALUMINUM BRACKET - SILVER OR WHITE

Sturdy cast aluminum bracket is designed for poles with 3/4" and 1" diameters. Bracket is adjustable to hold flag at any one of five positions: vertical, 23 degree, 45 degree, 68 degree and 90 degree (horizontal). Available in silver or white.

### METAL BRACKETS

1/2" or 3/4" classroom stamped metal bracket to hold spearhead flags with flag staffs up to 1/2" or 3/4" in diameter.

### TWO WAY STATIONARY BRACKET

Cast aluminum with baked white finish to hold 1" poles at 45 degree or 90 degree.

### SCHOOL BRACKET

Aluminum bracket with unique spring-clip lock to hold flags firmly in place. Fits staff sizes 1/4" to 5/8" inch in diameter.
